Course Name: Computer Lab 201 (Data Structure)
Instructor: Dr. Dibakar Saha and Dr. C. M. Anish
TA: Mr. Santosh Shakya and Mr. Anjanee Kumar

Assignment 6:

Problem I: Write a C program that converts given infix expression to postfix expression using STACK.

Problem II: Write a C program to convert given infix expression to prefix expression using STACK.

Note: These two programs are to be implemented during the lab class. This would be extended for submitting the assignment which will be shared after the class.
